

The CDDSC allows all CDDSC Registered Competitors and Adjudicators to participate where and whenever they choose without fear or favour or retribution of any type.

We are aware that Amateurs and Professionals alike have recently felt to be mere pawns in a political game of chess. Adoption of this policy places control of Dance Sport in the hands of the competitors. Where it belongs.

We believe all competitors should be able to compete in any competition they choose. We do not believe an organization has the right to take disciplinary action against a member for also joining another organization. Canada is a free country and we believe these restrictive actions are against our fundamental freedoms.

Across the world more and more competitors are refusing to accept the old restrictive policies.

CDDSC is proud to be part of the new wave. "Zero politics – All the finest events"
